Sri Lanka (1998-1999)
Child Activity Survey - 1999 (CAS 1999)

Overview	
Type	Child Labor Survey [hh/cls]
Identification	LKA-DCS-CAS-1999-v1.0
Version	Production Date: 2008-08-05 v1.0: Full edited dataset, original version for internal DPD use. <u>Notes</u> v1.0: Full edited dataset, original version for internal DPD use.
Series	<p>The International Programme for the Elimination of Child Labour (IPEC), functioning under International Labour Organization (ILO), decided to collect information required for their action plan, through a household based survey. The Department of Census & Statistics was entrusted with the implementation of the survey in Sri Lanka.</p> <p>The Child Activity Survey was conducted in 1990 by using a sample of 14,400 housing units, representing the whole country except for Northern and Eastern provinces. The questionnaire was so designed to collect information on economic activities, housekeeping activities and other leisure activities, in which the children in the age group 5-17 years are involved.</p> <p>Additional information on socio-economic conditions of their families was also collected at this survey.</p>
<p><u>Abstract</u> Child Activity Survey was designed to measure the economic activities and also other activities such as leisure, education and housekeeping activities in which average Sri Lankan child is involved.</p> <p>Key objectives of the survey</p> <ul style="list-style-type: none"> - To identify the activity status of children - To identify the health and safety of the working children - To identify the perceptions of the parents/guardians of the working child - To identify the labour force information of all persons of age 10 yrs. and over belonging to the household. - To identify the housing conditions and family income of the household 	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	1. Child aged between 5 and 17 yrs 2. Household where the child lives

Scope & Coverage	
<p><u>Scope</u> The scope of Child Activity Survey 1999 includes the following key sections:-</p> <ol style="list-style-type: none"> 1). Personal characteristics 2). Activity status of children 3). Health and safety of the working children 4). Perceptions of the parents/guardians of the working child 5). Labour force status 6). Housing conditions 7). Family income of the household 	
Topics	LABOUR AND EMPLOYMENT [3], children [12.1], housing [10.1]
<p><u>Geographic Coverage</u> National coverage. (Excluding Northern and Eastern provinces)</p>	
<p><u>Universe</u> Child Population in Sri Lanka</p>	

Producers & Sponsors	
Primary Investigator(s)	Department of Census and Statistics, Ministry of Finance and Planning
Other Acknowledgment(s)	

Sampling
<p><u>Sampling Procedure</u> Sampling Plan</p> <p>A two stage stratified sampling procedure was adopted to select an ultimate sample of 14,400 housing units (secondary sampling units) to be enumerated in the survey as described below.</p> <p>Sample Frame</p> <p>The master sampling frame prepared for the Demographic Survey - 1994 was used as the sampling frame for the selection of sample for the Child Activity Survey - 1999. This sampling frame consists of about 4000 primary sampling units (PSU's) and out of this 4000 PSU's, 960 PSU's were selected using probability proportionate to size (pps) method, to be enumerated in the Child Activity Survey. The PSU's were formed such that the housing units located in the PSU's can be identified within the clearly defined physical boundaries of the PSU. The known selection probabilities associated with each PSU in the master sampling frame prepared in 1994 were adjusted to get the selection probabilities of the PSU's selected in the Child Activity Survey - 1999 sample.</p> <p>Stratification</p> <p>The survey was conducted in areas excluding Northern & Eastern provinces of Sri Lanka. (There are 9 such provinces altogether in Sri Lanka). Each province consists of 2 or more administrative sub-divisions called Districts. The area in which the survey was to be conducted was stratified by district and sector of residence (urban & rural) thus forming 34 strata. (There are 17 districts in the 7 provinces where the survey was conducted).</p> <p>Allocation of Primary Sampling Units (PSU's)</p> <p>Primary Sampling Units (PSU's) were allocated among the strata by using proportionate allocation. (i.e.</p>

proportionate to the number of housing units in each stratum). After allocating the sample, the selection of the PSU's was done using a probability proportionate to size method. (Size being the number of housing units in each stratum).

Selection of Secondary Sampling Units (SSU's)

Lists of housing units, as prepared for Demographic Survey - 1994, were available for all the PSU's in the master sampling frame and those lists of the PSU's selected for the Child Activity Survey were updated prior to the survey.

A systematic sample of 15 housing units was selected as secondary sampling units or SSU's from the updated lists of housing units of each PSU selected in the sample. The distribution of 14,400 ultimate SSU's (housing units) so selected is given in the following table.

Deviations from Sample Design

The field work of the survey conducted in year 1999 was confined to seven provinces of the country excluding the Northern and the Eastern provinces (due to the prevailing situation in the above two provinces).

Response Rate

Response Rate is 93.7%

Data Collection

Data Collection Dates	8 months: start 1998-11-01 8 months: end 1999-06-30
Data Collection Mode	Face-to-face [f2f]

Data Collection Notes

As it can be seen in the questionnaire, it would have been best if the children themselves were interviewed to obtain the required information under section 2 and 3 of the questionnaire. However the experience of the survey teams was that the children were mostly not available during the time of the interviews and required information had to be obtained from a proxy respondent. (very frequently from a parent of the child).

When a selected sample housing unit was temporarily closed at the time of the survey, the survey team was expected to re-visit the same housing unit, even several times, with the view of getting a better response. Survey teams got a very good co-operation from the respondents (children and their parents) as regards the information collected. This was so because the questionnaire was not just confined to economic activities of the children.

The questionnaire was so designed to get the information on educational, leisure and housekeeping activities of the children prior to the information on economic activities and this sequential order of the questions helped very much for the survey enumerators to get the co-operation of the respondent.

However the reliability of the information provided by the respondents as to the duration of time spent on each activity is questionable, specially when the involvement of the child in a particular activity is very minimal.

Questionnaires

The questionnaire was designed to collect information on

- economic activities
- housekeeping activities and
- other leisure activities

in which the children in the age group 5-17 years are involved. Additional information on socio-economic conditions of their families was also collected at the survey.

Child Activity Survey - 1999 - Overview

Data Collector(s)	Department of Census and Statistics (DCS) , Ministry of Finance and Planning
<p><u>Supervision</u></p> <p>Survey field work was done in four rounds during the period from November 1998 to June 1999. Eight teams, each team consisting of 5 enumerators and a supervisor, were employed in the survey field enumeration.</p> <p>A four day training programme was organized to train the enumerators and supervisors in different aspects of the survey enumeration prior to the survey. This training programme was also attended by ILO & IPEC representatives. While the survey teams were in field, they were frequently visited by coordinators to evaluate the field conditions and also to liaise with the head office. These visits also helped the survey teams to get their problems addressed properly.</p>	

Data Processing & Appraisal	
<p><u>Data Editing</u></p> <p>When the completed questionnaires are received at the head office, the questionnaires were subject to a manual editing and coding operation at the Sample Survey Division of the DCS.</p>	
<p><u>Other Processing</u></p> <p>The computer data entry was done at the Data Processing Division and the data so entered was subject to a computer editing operation again at the Sample Survey Division. The clean data files so produced were then used to produce the tabulations.</p>	

Accessibility	
Access Authority	Director General (Department of Census and Statistics) , http://www.statistics.gov.lk , dgcensus@slt.net.lk
Contact(s)	Information Unit (Department of Census & Statistics) , http://www.statistics.gov.lk , information@statistics.gov.lk Sample Surveys Division (Department of Census & Statistics) , http://www.statistics.gov.lk , sample.survey@statistics.gov.lk
<p><u>Confidentiality</u></p> <p>Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.</p>	
<p><u>Access Conditions</u></p> <p>The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:</p> <ol style="list-style-type: none"> 1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement. 2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations. 3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or 	

establishment discovered inadvertently.

4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.

5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.

6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG, DCS. DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG, DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.

Variables Description

Dataset contains 179 variable(s)

File Control Data

#1 REC\$TYPE

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=13680 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		13680	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#2 YEAR: Year

Information [Type= continuous] [Format=numeric] [Range= 98-99] [Missing=*]

Statistics [NW/ W] [Valid=13680 /-] [Invalid=0 /-] [Mean=98.002 /-] [StdDev=0.0427 /-]

#3 MONTH: Month

Information [Type= continuous] [Format=numeric] [Range= 1-8] [Missing=*]

Statistics [NW/ W] [Valid=13680 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	January	3421	25.0%
2	February	3570	26.1%
3	March	3375	24.7%
4	April	3313	24.2%
8	August	1	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#4 SECTOR: Sector

Information [Type= discrete] [Format=numeric] [Range= 0-3] [Missing=*]

Statistics [NW/ W] [Valid=13680 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0		2	0.0%
1	Urban	2771	20.3%
2	Rural	10186	74.5%
3	Estate	721	5.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 DISTRICT: District

Information [Type= continuous] [Format=numeric] [Range= 1-25] [Missing=*]

File Control Data (cont.)

#5 DISTRICT: District (cont.)

Statistics [NW/ W]		[Valid=13680 /-] [Invalid=0 /-]	
Value	Label	Cases	Percentage
1	Colombo	1508	11.0%
2	Gampaha	1128	8.2%
3	Kalutara	841	6.1%
4	Kandy	979	7.2%
5	Matale	582	4.3%
6	Nuwara Eliya	804	5.9%
7	Galle	753	5.5%
8	Matara	702	5.1%
9	Hambantota	566	4.1%
18	Kurunegala	1074	7.9%
19	Puttalam	666	4.9%
20	Anuradhapura	714	5.2%
21	Polonnaruwa	484	3.5%
22	Badulla	806	5.9%
23	Monaragala	511	3.7%
24	Ratnapura	786	5.7%
25	Kegalle	776	5.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#6 PSU: Primary Sample Unit Number

Information	[Type= continuous] [Format=numeric] [Range= 1-439] [Missing=*]
Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]

#7 HHNO: Household serial Number

Information	[Type= continuous] [Format=numeric] [Range= 1-6205] [Missing=*]
Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]

#8 INFLATION_FACTOR: Inflation Factor

Information	[Type= continuous] [Format=numeric] [Range= 70645-10459737] [Missing=*]
Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]

#9 R1: R1 : Programmer Defined Variable

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]

Child Activity Survey - 1999 - Variables Description

File Control Data (cont.)

#9 R1: R1 : Programmer Defined Variable (cont.)

Frequency table not shown (153 Modalities)

#10 REST1: Result for the 1st visit

Information [Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]

Statistics [NW/ W] [Valid=13680 /-] [Invalid=0 /-] [Mean=1.122 /-] [StdDev=0.668 /-]

Value	Label	Cases	Percentage
1	Completed	13213	96.6%
2	Deferred	11	0.1%
3	No comptent responded at home	83	0.6%
4	Refused	4	0.0%
5	Housing unit is temporarily closed	368	2.7%
6	Ineligible	0	0.0%
7	Other	1	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 TIME1: Time taken for the 1st visit

Information [Type= discrete] [Format=numeric] [Range= 0-99] [Missing=*]

Statistics [NW/ W] [Valid=13593 /-] [Invalid=87 /-] [Mean=34.079 /-] [StdDev=13.202 /-]

Frequency table not shown (61 Modalities)

#12 REST2: Result for the 2nd visit

Information [Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]

Statistics [NW/ W] [Valid=464 /-] [Invalid=13216 /-] [Mean=1.183 /-] [StdDev=0.791 /-]

Value	Label	Cases	Percentage
1	Completed	438	94.4%
2	Deferred	1	0.2%
3	No comptent responded at home	8	1.7%
4	Refused	0	0.0%
5	Housing unit is temporarily closed	17	3.7%
6	Ineligible	0	0.0%
7	Other	0	0.0%
Sysmiss		13216	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#13 TIME2: Time taken for the 2nd visit

Information [Type= discrete] [Format=numeric] [Range= 0-60] [Missing=*]

Child Activity Survey - 1999 - Variables Description

File Control Data (cont.)

#13 TIME2: Time taken for the 2nd visit (cont.)

Statistics [NW/ W] [Valid=446 /-] [Invalid=13234 /-] [Mean=32.238 /-] [StdDev=10.178 /-]

Value	Label	Cases	Percentage
0		9	2.0%
10		3	0.7%
15		13	2.9%
16		1	0.2%
18		1	0.2%
20		39	8.7%
25		56	12.6%
28		3	0.7%
30		102	22.9%
32		3	0.7%
35		85	19.1%
38		1	0.2%
39		1	0.2%
40		75	16.8%
42		1	0.2%
45		23	5.2%
50		20	4.5%
55		6	1.3%
60		4	0.9%
Sysmiss		13234	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#14 REST3: Result for the 3rd visit

Information [Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]

Statistics [NW/ W] [Valid=26 /-] [Invalid=13654 /-] [Mean=1 /-] [StdDev=0 /-]

Value	Label	Cases	Percentage
1	Completed	26	100.0%
2	Deferred	0	0.0%
3	No comptent responded at home	0	0.0%
4	Refused	0	0.0%
5	Housing unit is temporarily closed	0	0.0%

Information	[Type= discrete] [Format=numeric] [Range= 1-6205] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]

#8 INFLATION_FACTOR: Infation Factor

Information	[Type= discrete] [Format=numeric] [Range= 70645-10459737] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]

Frequency table not shown (951 Modalities)

#9 R2: R2 : Programmer Defined Variable

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]

#10 SEN0: Person's Line Number

Information	[Type= continuous] [Format=numeric] [Range= 1-38] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-] [Mean=5.436 /-] [StdDev=7.703 /-]

#11 Q13: Relationship to the Head

Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Head of the Household	13772	19.3%
2	Wife/Husband	11115	15.6%
3	Son/Daughter	34125	47.9%
4	Parents	1172	1.6%
5	Other Relative	10516	14.8%
6	Domestic Servant	264	0.4%
7	Boarder	241	0.3%
8	Lodger	81	0.1%
9	Other	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Q14: Sex

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]

File Sec_01 : Personal Characteristics (cont.)

#12 Q14: Sex (cont.)

Value	Label	Cases	Percentage
1	Male	35853	50.3%
2	Female	35433	49.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#13 Q15: Age

Information	[Type= discrete] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]
Frequency table not shown (100 Modalities)	

#14 Q16: Ethnic Group

Information	[Type= discrete] [Format=numeric] [Range= 1-9] [Missing=*]		
Statistics [NW/ W]	[Valid=71286 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1	Sinhala	58563	82.2%
2	Sri Lankan Tamil	4605	6.5%
3	Indian Tamil	2517	3.5%
4	Sri Lankan Moor	5379	7.5%
5	Malay	134	0.2%

#13 Q74E: Expenditure on clothing

Information	[Type= discrete] [Format=numeric] [Range= 0-15000] [Missing=*]
Statistics [NW/ W]	[Valid=13676 /-] [Invalid=4 /-]
Frequency table not shown (185 Modalities)	

#14 Q75E: Other expenses(average monthly)

Information	[Type= discrete] [Format=numeric] [Range= 0-66400] [Missing=*]
Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]
Frequency table not shown (622 Modalities)	

#15 Q71I: Income from employments

Information	[Type= discrete] [Format=numeric] [Range= 0-99999] [Missing=*]
Statistics [NW/ W]	[Valid=13593 /-] [Invalid=87 /-]

File SEC_07 : Total Family Income of the Household (cont.)

#15 Q71: Income from employments (cont.)

Frequency table not shown (654 Modalities)

#16 Q72: Income from other cash receipts

Information [Type= discrete] [Format=numeric] [Range= 0-90000] [Missing=*]

Statistics [NW/ W] [Valid=13583 /-] [Invalid=97 /-]

Frequency table not shown (349 Modalities)

#17 Q73: Income from other non-monetary receipts

Information [Type= discrete] [Format=numeric] [Range= 0-19000] [Missing=*]

Statistics [NW/ W] [Valid=13564 /-] [Invalid=116 /-]

Frequency table not shown (181 Modalities)

#18 Q74: Income from non-agricultural activities

Information [Type= discrete] [Format=numeric] [Range= 0-99999] [Missing=*]

Statistics [NW/ W] [Valid=13675 /-] [Invalid=5 /-]

Frequency table not shown (220 Modalities)

#19 Q75: Income from agricultural activities

Information [Type= discrete] [Format=numeric] [Range= 0-99999] [Missing=*]

Statistics [NW/ W] [Valid=13563 /-] [Invalid=117 /-]

Frequency table not shown (424 Modalities)

#20 Q76: Monthly rental value of the owner occupied house

Information [Type= discrete] [Format=numeric] [Range= 0-63500] [Missing=*]

Statistics [NW/ W] [Valid=13636 /-] [Invalid=44 /-]

Frequency table not shown (112 Modalities)

#21 XX8: XX8 : Programmer defined variable

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=0 /-] [Invalid=0 /-]

File SEC_07 : Total Family Income of the Household (cont.)

#22 INF8: INF8 : Inflation factor 8

Information	[Type= discrete] [Format=numeric] [Range= 50.4949-8626.5869] [Missing=*]
-------------	--

Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]
--------------------	---------------------------------

Frequency table not shown (952 Modalities)

#23 INF81: INF81 : : Inflation factor 81

Information	[Type= discrete] [Format=numeric] [Range= 7.283-1078.3234] [Missing=*]
-------------	--

Statistics [NW/ W]	[Valid=13680 /-] [Invalid=0 /-]
--------------------	---------------------------------

Frequency table not shown (951 Modalities)
