Sri Lanka (1983)
Annual Survey of Industries - 1984 (ASI 1984)

Overview	
Type	Enterprise Survey [en/oth]
Identification	LKA-DCS-ASI-1984-v1.0
Version	Production Date: 2008-10-08 Version 1.0 : Full edited dataset, for internal DPD use
Series	The Department of Census and Statistics launched its series of Annual Surveys on Manufacturing Industries in 1979. The fourth of its series was carried out in 1982. The frame was restricted to manufacturing establishments approved by the Ministry of Industries and the public sector establishments. This series of surveys was replaced in 1984 by a new series called Annual Surveys on Industries to serve as the central multi-purpose inquiry in a national system of industrial survey activities.
<u>Abstract</u> The Department of Census and Statistics expanded its series of annual Survey of Industries since 1984 to cover mining and quarrying and electricity, gas and water sectors in addition to Manufacturing sector. Sample size was increased to about 5000 establishments with 5 or more persons engaged, to get meaningful estimates. The frame for this survey was the computer based register of industrial establishments obtained as a by-product of the Census of industry 1983.	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	Industrial establishments - Defined as the unit that is engaged in the production of a homogeneous group of goods and services, usually at one location but sometimes over a wider area, under a single legal entity, for which separate records are available.

Scope & Coverage	
<u>Scope</u> The scope of the 1984 survey was extended to cover activities of the Mining and Quarrying and the production and distribution of Electricity, Gas and water in addition to activities of the Manufacturing sector. In contrast to the previous series of surveys, a probability sample was selected for the 1984 survey. The sample size was also increased to 5044 establishments with 5 or more persons engaged, to obtain meaningful estimates with sufficient accuracy.	
Topics	TRADE, INDUSTRY AND MARKETS [2], LABOUR AND EMPLOYMENT [3]
<u>Geographic Coverage</u> National Coverage	
<u>Universe</u> Larger establishments in the private sector with 25 or more persons engaged , were fully canvassed and a sample was taken from the other categories.	
Category (Persons engaged)	No of Establishments
5 - 9	1526
10 - 14	539
15 - 24	435

>=25	2544 (fully enumerated)
Total enumerated	5044
In addition to the above categories the following were canvassed completely.	
1. State Industrial Corporations/Boards	
2. Government owned Business Undertakings (Industrial)	
3. Industries falling within the purview of Greater Colombo Economic Commission Areas.	

Producers & Sponsors	
Primary Investigator(s)	Department of Census and Statistics, Ministry of Finance and Planning
Funding Agency/ies	Department of Census and Statistics (DCS) , Source of funds

Sampling
<u>Sampling Procedure</u> A probability sample was selected for this survey.
<u>Deviations from Sample Design</u> The following were canvassed completely in addition to the data collection from the sample. <ol style="list-style-type: none"> 1. State Industrial Corporations/Boards 2. Government owned Business Undertakings (Industrial) 3. Industries falling within the purview of Greater Colombo Economic Commission Areas.
<u>Response Rate</u> The response rate for the survey was around 73% which was strikingly similar to that for the 1982 Survey on Manufacturing Industries.
<u>Weighting</u> PI see External Resources Section for a list of District-wise Inflation Factors

Data Collection	
Data Collection Dates	start 1983 end 1983
Data Collection Mode	Face-to-face [f2f]
<u>Data Collection Notes</u> The postal enumeration method was adopted to collect information, followed by field visits to non-responding establishments.	
<u>Questionnaires</u> The main sections of the questionnaire pertaining to this survey were: Receipts from Industrial Services Shipments and Other receipts Power and Fuel consumed Fixed Assets Persons engaged	

Salaries and Wages Output

A modified questionnaire was prepared taking into consideration UN recommendations, as well as the manner in which some industrial establishments maintained their business records (source Annual Survey of Industries 1984 - preliminary Report by dept of Census and Statistics).

Confidentiality

Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

Access Conditions

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.
4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international

agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.

- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG of the DCS. The DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG of the DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.
