Preliminary Report

Statistics Branch  
Ministry of Education  
Sri Lanka

## Preface

Accurate information, undoubtedly, is an essential tool in monitoring the development and improvement of quality in an existing system, in addition to its traditional role in planning. The annual School Census carried out by the Statistics Branch of the Ministry of Education has been the major source for the last four decades in providing such information on General Education in Sri Lanka.

This important annual event has always been successfully accomplished with the active contribution of various officers at all levels in the general education system. Therefore, I would like to express my gratitude to the officers from the Provincial Departments of Education, Zonal Education Offices, Divisional Education Offices and Principals of all schools for their co-operation, without which we would not have been able to carry out this task successfully every year.

This publication has been organized and prepared by the Statistics Branch of this Ministry for the last eight years. I wish to thank them for their hard work in bringing out this publication.

I sincerely hope that this publication would be of immense use to policy designers, education planners as well as to researchers in their educational pursuits.

## Introduction

This report presents the preliminary findings of the School Census 2005, which was carried out as at 1<sup>st</sup> June 2005. This census, which has been carried out by the ministry for the last 40 years, covers all government schools in the country. Information about the school, students, teachers, non-academic staff and the physical facilities available is collected using 2 forms. In addition, separate censuses are carried out to collect information from private schools, pirivenas, Teacher Training Colleges and National Colleges of Education.

### (1) Districts, Education Zones and Education Divisions by province

Province	No. of districts	No. of education zones	No. of education divisions
Western	3	11	38

 Type 2 - Schools having classes only up to grade 11  
 Type 3 - Schools having classes only up to grade 8

Gross student teacher ratio is the number of students per teacher (including academic staff involved in administration and supervision).

$$\text{Gross STR} = \frac{\text{No. of Students}}{\text{No. of teachers}}$$

### National, Navodya and other provincial schools

(3) Schools, Students and teachers in National, Navodya and other schools

	Schools		Students		Teachers	
	No.	%	No.	%	No.	%

Therefore officially there were 4 batches of A/L students (A/L 2007 batch, A/L 2006 batch, A/L 2005 first time batch and A/L 2005 second time batch) in schools at the time of the census and hence the number of students has increased in 2005 compared to recent years.
- Less than 1% of total students study in English medium in any grade.

### Gross student teacher ratio in govt. schools

(10) Student teacher ratio (STR) by province

Province	Student/Graduate teacher ratio	Student/Trained teacher ratio	Student/Untrained teacher ratio	Overall STR
Western	69	37	950	23
Central	73	28	414	19
Southern	65	30	1,024	20
Northern	77	38	267	23

Uva	91	27	377	19
Sabaragamuwa	79	28	858	20
Sri Lanka	76	31	527	21

- Western, Northern and Eastern Provinces have the highest student teacher ratio while students in the Central, North Western and Uva provinces are fortunate to have a student teacher ratio of 19:1
- Students in the Southern province can be considered privileged as there is only one untrained teacher for 1000 students.

(11) Student teacher ratios of various schools

Province	Student/ teacher ratio
<b>Functional grade</b>	
1 AB	25
1 C	22
Type 2	17
Type 3	19
<b>Sex of students in school</b>

Sinhala only	19
Tamil only	24
Sinhala and Tamil	23
Sinhala and English	25
Tamil and English	25
Sinhala Tamil and English	25
All schools	21

- When STRs are compared by functional grade of school, Type 2 schools have the lowest student teacher ratio.
- Mixed schools have the most desirable STR than single sex schools.
- It is evident that schools with English medium have a slightly higher STR than schools without English medium at any level.

(12) 1 teacher and 2 teacher schools by student teacher ratio

STR	1 teacher schools	2 teacher schools
1 student per teacher	0	1
2 students per teacher	3	3
3 students per teacher	3	8
4 students per teacher	4	12

41-50 students per teacher	13	11
51-75 students per teacher	21	15
76 or more students per teacher	8	7
All schools	167	350

- It is evident that out of all the schools with only one teacher, some even have more than 75 students.
- 7 schools in the island have more than 150 students but only 2 teachers.
