Sri Lanka (2008-2009)  
Child Activity Survey - 2009 (CAS 2009)

Overview	
Type	child Labor Survey [hh/cls]
Identification	LKA-DCS-CAS-2009-v1.0
Version	<p>Production Date: 2011-08-01</p> <p>v1.0 : Full edited dataset , original version for internal DPD use.</p> <p><u>Notes</u></p> <p>v1.0 : Full edited dataset , original version for internal DPD use.</p>
Series	<p>The Child Activity Survey 2008/09, the second in the series has been successfully conducted by the Department of Census and Statistics from October - 2008 to April -2009. The sample was 16,000 housing units that represent the whole country excluding the Northern Province.</p> <p>Funding and technical advices for the survey was provided by the International Labour Organization (ILO).</p> <p>The survey questionnaire was designed to elicit information on Economic activities, Family work and Leisure activities of the children in the age group of from 5 to 17 years and also information on socio-economic conditions of the households and the health and safety situation of the children surveyed.</p>
<p><u>Abstract</u></p> <p>Child Activity Survey was designed to measure the economic activities and also other activities such as leisure, education and housekeeping activities in which average Sri Lankan child is involved.</p> <p>Key objectives of the survey</p> <ul style="list-style-type: none"> <li>- To identify the activity status of children</li> <li>- To identify the health and safety of the working children</li> <li>- To identify the perceptions of the parents/guardians of the working child</li> <li>- To identify the labour force information of all persons of age 10 yrs. and over belonging to the household.</li> <li>- To identify the housing conditions and family income of the household</li> </ul>	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	<p>1. Child aged between 5 and 17 yrs</p> <p>2. Household where the child lives</p>

Scope & Coverage	
<p><u>Scope</u></p> <p>The scope of Child Activity Survey 2009 includes the following key sections:-</p> <ol style="list-style-type: none"> <li>1). Economic Activity</li> <li>2). Unemployment</li> <li>3). Usual Activity Status</li> <li>4). Housekeeping activities</li> <li>5). Usual Residence of Child's Parents</li> <li>6). Housing conditons</li> <li>7). Family income of the household</li> </ol>	
Topics	LABOUR AND EMPLOYMENT [3], children [12.1], housing [10.1]
<p><u>Geographic Coverage</u></p> <p>National coverage. ( Excluding Nothern province )</p>	
<p><u>Universe</u></p> <p>Child Population in Sri Lanka</p>	

Producers & Sponsors	
Primary Investigator(s)	Department of Census and Statistics, Ministry of Finance and Planning
Other Producer(s)	

Sampling
<p><u>Sampling Procedure</u></p> <p>Sampling Plan</p> <p>A two stage stratified sampling procedure was adopted to select an ultimate sample of 16,000 housing units ( secondary sampling units ) to be enumerated in the survey as described below.</p> <p>Sample Frame</p> <p>At the time of the Census of Population &amp; Housing - 2001, Sri Lanka (excluding the Northern Province) was divided in to approximately 100,000 enumeration areas (called census blocks) mainly for the convenience of Census enumeration. Before the Census enumeration, all the building units located in these Census blocks are listed and the Census is conducted using the lists of building units prepared. After the Census enumeration, when the computer data files and the Census data are available, a sampling frame, with such 'Census blocks' as primary sampling units (PSU), was constructed. This sampling frame used in the Household Sample Surveys conducted by DCS was updated in 2006, by making adjustments in the frame; in order to accommodate material changes that took place during the period 2001 to 2005. This updated frame was used as the sampling frame for the purpose of child Activity Survey 2008/09.</p> <p>Stratification</p> <p>DCS has a District Statistics Office in each district and thus all its statistical activities are coordinated through these District Statistics Offices for administrative convenience with the first stratification used being the district. Further, there are 3 sectors of residence in Sri Lanka,</p> <p>(1) Urban (2) Rural and (3) Estate</p> <p>In a given district, people living in each of these 3 sectors of residence could be considered to have homogeneous</p>

characteristics endemic to those sectors while heterogeneous characteristics may be identified among persons of different sectors, in terms of their socio- economic backgrounds. Therefore in a further stratification the districts are further divided by the sector of residence and since there are 20 districts in the survey domain we should have 60 strata altogether. However there are two districts with no identifiable urban sector and 8 districts with no estate sector. Hence we have 50 strata in the sampling frame for the selection of samples.

#### Allocation of Primary Sampling Units (PSU's)

In order to achieve a sample of 16,000 housing units in the sample, a sample of 1609 census blocks or primary sampling units (PSUs) were selected, as the PSU sample (Later 10 sample housing units from each such PSU were selected to achieve the required ultimate sample of approximately 16,000 housing units). The primary sample of 1609 census blocks were then allocated among the 50 strata, proportionate to the number of housing units in each stratum.

#### Selection of Secondary Sampling Units (SSU's)

Lists of the building units of the census blocks (PSUs) so selected were sent to the district statistics office for an 'updating operation'. At this updating operation, details of the building units appearing in the lists were updated to accommodate the changes that have taken place (Additions and/or deletions of units or changing the description). When the updated lists were received at the DCS, Head office, the secondary sampling units (the sample housing units) were selected by using a systematic sampling method. At this stage a final sample of 10 housing units were selected from each list of updated building units pertaining to a given census block. The distribution of sample housing units by district and sector (stratum) is given in the following table. However, at the time of the survey enumeration, 505 sample housing units were found to be either vacant or demolished making the effective sample housing units for the survey 15,408.

#### Deviations from Sample Design

The Child Activity Survey 2008/09, the second in the series has been successfully conducted by the Department of Census and Statistics from October - 2008 to April -2009. The sample was 16,000 housing units that represent the whole country excluding the Northern Province

#### Response Rate

Response Rate is 97.5%

### Data Collection

Data Collection Dates	8 months: start 2008-11-01 8 months: end 2009-06-30
Data Collection Mode	Face-to-face [f2f]

#### Data Collection Notes

As it can be seen in the questionnaire, it would have been best if the children themselves were interviewed to obtain the required information under section 3 and 4 of the questionnaire. However the experience of the survey teams was that the children were mostly not available during the time of the interviews and required information had to be obtained from a proxy respondent. ( very frequently from a parent of the child).

When a selected sample housing unit was temporarily closed at the time of the survey, the survey team was expected to re-visit the same housing unit, even several times, with the view of getting a better response. Survey teams got a very good co-operation from the respondents (children and their parents) as regards the information collected. This was so because the questionnaire was not just confined to economic activities of the children.

The questionnaire was so designed to get the information on educational, leisure and housekeeping activities of

the children prior to the information on economic activities and this sequential order of the questions helped very much for the survey enumerators to get the co-operation of the respondent.

However the reliability of the information provided by the respondents as to the duration of time spent on each activity is questionable, specially when the involvement of the child in a particular activity is very minimal.

#### Questionnaires

The questionnaire was designed to collect information on

economic activities  
housekeeping activities and  
other leisure activities

in which the children in the age group 5-17 years are involved. Additional information on socio-economic conditions of their families was also collected at the survey.

Data Collector(s)	Department of Census and Statistics (DCS) , Ministry of Finance and Planning
-------------------	--

#### Supervision

Survey field work was done in four rounds during the period from November 1998 to June 1999. Eight teams, each team consisting of 5 enumerators and a supervisor, were employed in the survey field enumeration.

A four day training programme was organized to train the enumerators and supervisors in different aspects of the survey enumeration prior to the survey. This training programme was also attended by ILO & IPEC representatives. While the survey teams were in field, they were frequently visited by coordinators to evaluate the field conditions and also to liaise with the head office. These visits also helped the survey teams to get their problems addressed properly.

### Data Processing & Appraisal

#### Data Editing

When the completed questionnaires are received at the head office, the questionnaires were subject to a manual editing and coding operation at the Sample Survey Division of the DCS.

#### Other Processing

The computer data entry was done at the Data Processing Division and the data so entered was subject to a computer editing operation again at the Sample Survey Division. The clean data files so produced were then used to produce the tabulations.

### Accessibility

Access Authority	Director General (Department of Census and Statistics) , <a href="http://www.statistics.gov.lk">http://www.statistics.gov.lk</a> , <a href="mailto:dgcensus@statistics.gov.lk">dgcensus@statistics.gov.lk</a>
Contact(s)	Information Unit (Department of Census & Statistics) , <a href="http://www.statistics.gov.lk">http://www.statistics.gov.lk</a> , <a href="mailto:information@statistics.gov.lk">information@statistics.gov.lk</a> Sample Surveys Division (Department of Census & Statistics) , <a href="http://www.statistics.gov.lk">http://www.statistics.gov.lk</a> , <a href="mailto:sample.survey@statistics.gov.lk">sample.survey@statistics.gov.lk</a>

#### Confidentiality

Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual

Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

#### Access Conditions

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.
4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG, DCS. DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.

- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG, DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.

# Variables Description

Dataset contains 298 variable(s)

## File Identification Information

### #1 REC\$TYPE

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
01		15218	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #2 CASR: Survey Round

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1		3732	24.5%
2		3766	24.7%
3		3653	24.0%
4		4067	26.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #3 CAMONTH: Survey Month

Information	[Type= discrete] [Format=numeric] [Range= 1-12] [Missing=*]		
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1		2913	19.1%
2		2005	13.2%
3		3703	24.3%
4		473	3.1%
10		680	4.5%
11		2624	17.2%
12		2820	18.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #4 CADISTRICT: Name of District

Information	[Type= discrete] [Format=numeric] [Range= 11-92] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]
Frequency table not shown (34 Modalities)	

## File Identification Information (cont.)

## #5 CASECTOR: Sector

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Urban	1906	12.5%
2	Rural	12366	81.3%
3	Estate	946	6.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #6 CADS\_DIVISION: DS Division

Information	[Type= continuous] [Format=numeric] [Range= 3-87] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-] [Mean=24.738 /-] [StdDev=16.662 /-]

## #7 CAPSU: PSU Number

Information	[Type= continuous] [Format=numeric] [Range= 1-215] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-] [Mean=73.34 /-] [StdDev=44.984 /-]

## #8 CASSU: SSU Number

Information	[Type= discrete] [Format=numeric] [Range= 1-10] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		1509	9.9%
2		1529	10.0%
3		1518	10.0%
4		1531	10.1%
5		1534	10.1%
6		1531	10.1%
7		1517	10.0%
8		1529	10.0%
9		1517	10.0%
10		1503	9.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #9 CAHH: Household Number

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]

## File Identification Information (cont.)

## #9 CAHH: Household Number (cont.)

Value	Label	Cases	Percentage
1		15011	98.6%
2		192	1.3%
3		14	0.1%
4		1	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #10 CANOHH: Number of Households in this unit

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1		14819	97.4%
2		356	2.3%
3		39	0.3%
4		4	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #11 CARESULT: Result

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]		
Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1	Completed	15218	100.0%
2	Deferred	0	0.0%
3	No comptent responded at home	0	0.0%
4	Refused	0	0.0%
5	Household is temporarily closed	0	0.0%
6	Household is demolished / Vacant	0	0.0%
7	Other	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #12 CAINTERVIEWER: Interviewer

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=15216 /-] [Invalid=0 /-]		

Frequency table not shown (76 Modalities)

## File Identification Information (cont.)

## #13 CASUPERVISOR: Supervising Officer

Information	[Type= discrete] [Format=numeric] [Range= 1-11] [Missing=*]
-------------	---

Statistics [NW/ W]	[Valid=15191 /-] [Invalid=27 /-]
--------------------	----------------------------------

Value	Label	Cases	Percentage
1		1512	10.0%
2		1670	11.0%
3		1541	10.1%
4		1497	9.9%
5		1427	9.4%
6		1350	8.9%
7		1513	10.0%
8		1540	10.1%
9		1569	10.3%
10		464	3.1%
11		1108	7.3%
Sysmiss		27	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #14 CAEDITOR: Manual Editing Officer

Information	[Type= discrete] [Format=character] [Missing=*]
-------------	---

Statistics [NW/ W]	[Valid=15218 /-] [Invalid=0 /-]
--------------------	---------------------------------

Frequency table not shown (72 Modalities)

## File Section A \_ Demographic Characteristics

## #1 REC\$TYPE

Information	[Type= discrete] [Format=character] [Missing=*]
-------------	---

Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]
--------------------	---------------------------------

Value	Label	Cases	Percentage
02		65866	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #2 CASR: Survey Round

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
-------------	--

Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]
--------------------	---------------------------------

3		6559	10.0%
4		6658	10.1%
5		6658	10.1%
6		6566	10.0%
7		6613	10.0%
8		6586	10.0%
9		6548	9.9%
10		6493	9.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #9 CAHH: Household Number

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
-------------	--

Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]
--------------------	---------------------------------

Value	Label	Cases	Percentage
1		65151	98.9%
2		669	1.0%
3		43	0.1%
4		3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #10 QA1: Serial Number

Information	[Type= continuous] [Format=numeric] [Range= 1-46] [Missing=*]
-------------	---

Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-] [Mean=6.037 /-] [StdDev=10.765 /-]
--------------------	--

## File Section A \_ Demographic Characteristics (cont.)

## #11 QA3: Relationship to head of the household

Information	[Type= discrete] [Format=numeric] [Range= 1-9] [Missing=*]		
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1	Head of the household	15218	23.1%
2	Wife / Husband	11853	18.0%
3	Son / Daughter	27249	41.4%
4	Parents	1106	1.7%
5	Other Relative	10134	15.4%
6	Domestic Servants	157	0.2%
7	Boarder	114	0.2%
9	Other	35	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #12 QA4: Sex

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1	Male	32528	49.4%
2	Female	33338	50.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #13 QA5Y: Date of Birth\_year

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]		
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-] [Mean=61.519 /-] [StdDev=29.194 /-]		

## #14 QA5M: Date of Birth\_Month

Information	[Type= discrete] [Format=numeric] [Range= 0-25] [Missing=*]		
Statistics [NW/ W]	[Valid=65529 /-] [Invalid=337 /-]		
Value	Label	Cases	Percentage
0		4	0.0%
1		5502	8.4%
2		4923	7.5%
3		5570	8.5%
4		5809	8.9%
5		5704	8.7%
6		6288	9.6%

## File Section A \_ Demographic Characteristics (cont.)

## #14 QA5M: Date of Birth\_Month (cont.)

Value (cont.)	Label	Cases	Percentage
7		5386	8.2%
8		5445	8.3%
9		4953	7.6%
10		5564	8.5%
11		5076	7.7%

25		1	0.0%
Sysmiss		337	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #15 QA6: Age as at last birth day (Years)

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-] [Mean=32.196 /-] [StdDev=20.7 /-]

## #16 QA7: Ethnicity

Information	[Type= discrete] [Format=numeric] [Range= 1-9] [Missing=*]
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Sinhala	50621	76.9%
2	Sri Lanka Tamil	6259	9.5%
3	Indian Tamil	1645	2.5%
4	Sri Lanka Moors	7197	10.9%
5	Malay	57	0.1%
6	Burgher	65	0.1%
9	Other	22	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #17 QA8: Religion

Information	[Type= discrete] [Format=numeric] [Range= 1-9] [Missing=*]
Statistics [NW/ W]	[Valid=65866 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Buddhist	47777	72.5%
2	Hindu	7071	10.7%
3	Islam	7209	10.9%
4	Roman Catholic /Other Cristian	3799	5.8%
9	Other	10	0.0%

## File Section A \_ Demographic Characteristics (cont.)

## #17 QA8: Religion (cont.)

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #18 QA9: Attendance at school or other Education institution(3 Years and over)

Information [Type= discrete] [Format=numeric] [Range= 1-7] [Missing=\*]

Statistics [NW/ W] [Valid=62861 /-] [Invalid=3005 /-]

Value	Label	Cases	Percentage
1	Pre School	1442	2.3%
2	School	12896	20.5%
3	University	311	0.5%
4	Other educational institution	591	0.9%
5	Vocational / Technical Institution	333	0.5%
6	Pending result	808	1.3%
7	Does not attend	46480	73.9%
Sysmiss		3005	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## #19 QA10: Level of Education (5 Years and Over)

Information [Type= discrete] [Format=numeric] [Range= 0-19] [Missing=\*]

Statistics [NW/ W] [Valid=60689 /-] [Invalid=5177 /-]

Value	Label	Cases	Percentage
0	Studying in Grade 1	1046	1.7%
1	Passed Grade 1	1790	2.9%
2	Passed Grade 2	2603	4.3%
3	Passed Grade 3	2505	4.1%
4	Passed Grade 4	3355	5.5%
5	Passed Grade 5	3906	6.4%
6	Passed Grade 6	2792	4.6%
7	Passed Grade 7	3519	5.8%
8	Passed Grade 8	4180	6.9%
9	Passed Grade 9	3379	5.6%
10	Passed Grade 10	13481	22.2%
