TITLE

Labour Force Survey - 2014

COUNTRY

Name	Country code
Sri Lanka	LKA

STUDY TYPE

Labor Force Survey [hh/lfs]

SERIES INFORMATION

Sri Lanka Labour Force Survey (LFS) was designed to measure the levels and trends of employment, unemployment and labour force in Sri Lanka.

Since 1990, the survey is being conducted quarterly. 2014 is the fifteenth successive year in which the survey has been repeated.

ABSTRACT

The employment/unemployment data are required at very short intervals to monitor the program made in the employment generating policies of the government. To satisfy this need, Sri Lanka Labour Force Survey was designed as a quarterly basis survey to measure the levels and trends of employment, unemployment and labour force in Sri Lanka. Thus the survey is repeated four times each year (in most years) since the first quarter of 1990.

Key objectives of the survey

- To study the economically active / inactive population.
- To analyze employment by major industry group and employment status.
- To determine unemployment rates by level of education and by age group
- To study the informal sector employment.
- To determine the underemployment rates by sector and by major industries

In January 2006, significant improvements have been made to the survey schedule in such aspects as literacy, household economic activities, informal sector employment, underemployment etc. The survey covered all 25 districts in 2014.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals from the population aged 15 years or more

Version

VERSION DESCRIPTION

v1.0: Full edited dataset, original version for internal DPD use.

Sampling

SAMPLING PROCEDURE

2.1 Sampling plan and the sampling frame

A two stage stratified sampling procedure was adopted to select a sample of 25,000 housing units to be enumerated in the survey. The master sampling frame prepared for 2012 - Census of Population and Housing was used as the sampling frame for the selection of sample for the Labour Force Survey 2014.

2.2 Sample size

The quarterly survey was conducted since 1990 using a sample of 2,000 housing units per quarter in areas other than North and East, and the sample size was increased to 4,000 housing units per quarter in 1996 and continued thereafter. However, in 1992 and 1997, an annual sample of 20,000 housing units was selected to give reliable district level estimates. In 2004 again 20,000 housing units were selected for the survey. However, in order to provide district level estimates precisely, it was decided to use 20,000 - 25,000 housing units as the annual sample. As such, in 2014, the annual sample of 25,000 housing units was selected.

2.3 Sample Allocation

Allocation of 2,500 Primary Sampling Units (PSU's) for the Districts and sectors were done using the Neymann Allocation procedure. In other words, the allocation of PSU's to strata was disproportionate, designed to produce estimates of acceptable reliability for each area for which separate estimates were needed. Then The District sample was equally distributed among the 12 monthly rounds. Table 1 gives the sample distributions by District for year 2014.

Table 1: Sample allocation by District - 2014.

District Housing Units	District Housing Units
Total 25,000	Mullaitivu 360
Colombo 2,270	Kilinochchi 360
Gampaha 2,590	Batticaloa 860
Kalutara 1,250	Ampara 1,010
Kandy 2,150	Trncomalee 500
Matale 570	Kurunegala 2,100
Nuwara-eliya 590	Puttalam 680

Galle 1,300 Anuradhapura 670
 Matara 1,200 Polonnaruwa 530
 Hambantota 1,000 Badulla 890
 Jaffna 600 Moneragala 460
 Mannar 360 Ratnapura 1,180
 Vavuniya 360 Kegalle 1,160

2.4 Selection of Primary Sampling Units (PSU)

Primary sampling units are the census blocks prepared for the Census of Population and Housing - 2012. The sample frame, which is a collection of all census blocks in the domain, was used for the selection of primary sampling units. A sample of 2,500 primary sampling units was selected from the sampling frame for the 2014 labour force survey.

2.5 Selection of Secondary Sampling Units (SSU)

Secondary Sampling Units are the housing units in the selected 2,500 primary sampling units (census blocks). From each primary sampling unit 10 housing units (SSU) were selected for the survey.

CONFIDENTIALITY

Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as

the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

ACCESS CONDITIONS

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.
4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG, DCS. DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG, DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.
