TITLE

Survey of Establishments on Employment, Earnings & Hours of Work - 1982

COUNTRY

Name	Country code
Sri Lanka	LKA

STUDY TYPE

Enterprise Survey [en/oth]

SERIES INFORMATION

This half-yearly sample survey was initiated in September, 1972 by the Department of Labour in pursuance of a UNDP/ILO project for the development of Labour Statistics. Since then the survey has been regularly conducted for the collection of data on earnings, hours of work and related matters for March and September of every year from a sample of establishments with 5 or more paid employees.

From 1975, the Sample Survey of Earnings and Hours Worked is being carried out only once a year and the reference period for the 1975 survey was March 1975 though this was changed to June from 1976.

The Sample Survey of Establishments on Employment, Earnings & Hours of Work - June, 1982 is the eleventh in the series.

ABSTRACT

The survey covers a sample of establishments in the organised sector (establishments with 5 or more paid employees) engaged in production, construction, transport, storage and business services etc. Although it covers both public and private sector establishments is limited to the Statutory Boards, Corporations and a few Government Departments such as the Department of Buildings, the Marketing Department, the Railway Workshop, the Government Factory, the Government Printer etc. Other Departments whose functions do not strictly come within the scope of the survey were excluded.

The objective of the sample survey is to collect detailed labour statistics on a repetitive basis to indicate trends. Statistics of earnings and hours of work are collected including number employed, man days worked and paid for normal, and overtime man hours and the components of the total wage bill. These statistics are collected according to the eightfold broad occupational categories e.g. Administrative & Managerial Workers, Professional, Technical and Related Workers, Clerical and Related Workers etc.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

The survey covers establishments with 5 or more paid employees.

Sampling

SAMPLING PROCEDURE

A probability sample of about 1750 establishments were selected for the survey from some 12,000 establishments, the frame being the responding establishments of the Annual Employment Survey 1981. About 900 establishments with employees over 100 were included in the Survey as a whole and establishments with employees below were subjected to sample selection. The method of stratified random sampling was adopted to select the establishments such that the sample will be optimum in size to give the estimates a predetermined degree of precision which was fixed at 5% error at 95% confidence limits.

Data Collection

1982-07-01	1982-07-31

DATA COLLECTION MODE

Other [oth]

DATA COLLECTION NOTES

The Programming Assistants of the Statistics Branch of the Department of Labour are responsible for the collection of the data from the sample establishments. Data was collected from the records and the registers of the establishments.

Questionnaires

QUESTIONNAIRES

In 1982, the same schedule which was used in 1981, was used to collect the data.

Data Processing

DATA EDITING

Certain edit checks were introduced in the Computer Programs and on the basis of that some quality checks were exercised.
