TITLE

Tsunami Census - 2005 (Housing/Non-Housing Units and Persons Affected by Tsunami)

COUNTRY

Name	Country code
Sri Lanka	LKA

STUDY TYPE

Living Standards Measurement Study [hh/lms]

SERIES INFORMATION

Many institutions have adopted various methods to measure the damage caused by the Tsunami occurred in 2004. As there was no uniformity in the methodologies adopted, the figures were found to be different from each other. So the DCS decided to conduct this special census to collect information on the people, the housing units and the buildings affected from Tsunami.

ABSTRACT

With the objective of providing Information on the impact of Tsunami on Sri Lanka for better planning rebuilding of systems and rehabilitation of those affected, DCS conducted a Census of Tsunami on Feb 2005 to provide unbiased and reliable information on this event. The complexity of the situation was very high and DCS realized this as a tough task. The Census was conducted in two stages. During the stage 1, all the building units in the affected Census Blocks were listed under three categories. In stage 2, detailed information was collected from both damaged housing and non housing units using a separate questionnaire.

The dataset belongs to the stage 2 of the project whose purpose was to enumerate the housing units of the Tsunami affected areas and the persons affected by the disaster.

Household

Version

VERSION DESCRIPTION

v1.0 : Edited Dataset, for internal DPD use.

VERSION DATE

2008-07-11

VERSION NOTES

The main objective of this census was to collect detailed information on housing units and other buildings (Hospitals, Schools, Hotels, Restaurants, Shops etc) which were damaged by Tsunamidevastation. The information will be useful to policy makers, planners etc.

Scope

NOTES

Information on persons currently living in the unit

Information on persons who have died or still considered missing

Housing Information
Non-Housing Information

TOPICS

Topic	Vocabulary	URI
housing [10.1]	CESSDA	Link

Coverage

GEOGRAPHIC COVERAGE

Thirteen out of the 14 Districts lying in the coastal belt of Sri Lanka have reported to be affected by the waves. The Census was conducted only in the areas directly affected by Tsunami.

UNIVERSE

Tsunami affected Houses, buildings and the inmates.

Data Collection

DATES OF DATA COLLECTION

Start
2005-02

DATA COLLECTION MODE

Face-to-face [f2f]

DATA COLLECTION NOTES

DCS has identified all the Grama Niladhari Divisions in each District affected by Tsunami (Already all such Divisions have been marked on electronic maps)

The lists (F1 Form) of housing units and other buildings (prepared for the census 2001) pertaining to the affected census blocks of the affected GN Divisions have been extracted and photocopied from the available records.

A GN division is subdivided into several Census Blocks(CB). Each CB has about 80 housing units in the Urban areas and about 65 units in the Rural/Estate areas. Lists of H/units for each CB with sketch map were prepared and stored in the DCS for conducting surveys. This map includes building type (housing unit, other building etc), serial number of the unit. This unit is called F1 form. About 125 000 F1 forms are drawn for the entire Sri Lanka. Before any survey this list has to be updated.

DCS has identified all the Grama Niladhari Divisions in each District affected by Tsunami (Already all such Divisions have been marked on electronic maps)

The lists (F1 Form) of housing units and other buildings (prepared for the census 2001) pertaining to the affected census blocks of the affected GN Divisions have been extracted and photocopied from the available records.

A GN division is subdivided into several Census Blocks(CB). Each CB has about 80 housing units in the Urban areas and about 65 units in the Rural/Estate areas. Lists of H/units for each CB with sketch map were prepared and stored in the DCS for conducting surveys. This map includes building type (housing unit, other building etc), serial number of the unit. This unit is called F1 form. About 125 000 F1 forms are drawn for the entire Sri Lanka. Before any survey this list has to be updated.

F1 form has the following Basic Info:

Census Unit No
 Postal Address
 Chief Occupant's name
 Whether Housing unit, Collective living quarters, institution/non housing unit)
 No of persons usually spending the night
 The economic activity of the members residing in the unit
 Whether they have land outside
 Whether they do fishing

A new list of units for affected areas was completed using F1 forms as a guide line.

Access policy

CONFIDENTIALITY

Note - The validity of below mentioned confidentiality clause will have to be discussed with the Access Authority as the data has been collected for state and public use. Under the Statistical ordinance, microdata cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

ACCESS CONDITIONS

Note - The validity of below mentioned access conditions will have to be discussed with the Access Authority as the data has been collected for state and public use.

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.
4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that Prices data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department.

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG of the DCS. The DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG of the DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.

Note - [Department = The Department of Census and Statistics (DCS)]
