### STUDY TYPE

Agricultural Survey [ag/oth]

### SERIES INFORMATION

This survey was the fifth in the series of surveys conducted by the Department of Census and Statistics (DCS) under National Household Programme.

### ABSTRACT

The Department of Census and Statistics conducted a Household Survey of Agriculture Sector in 1988/89, with a view of obtaining detail information on Agriculture Households which are required for formulation and evaluation of Agricultural Policies and Programmes, and which cannot be obtained from decennial Agricultural Censuses.

Information collected in this survey were on demographic characteristics of the household member such as age, sex, relationship to head of the household, ..... etc., land utilization and ownership, home-garden cultivation, labour utilization, their wages, in-puts, outputs and sales and finally loans and subsidies taken.

Listing operation was done prior to the survey proper. At the listing stage the households with at least one of its members engaged in cultivation, livestock/poultry keeping or fisheries, either as an employer or an own account worker or a labourer were identified and a list was prepared for the selected block.

## Sampling

## SAMPLING PROCEDURE

A stratified two stage probability sample design was used with Census Blocks (CB) as primary sampling units (PSU's) and Agricultural households as secondary sampling units (SSU's).

It was decided to include 2,500 census blocks in the sample. These 2,500 CBS were proportionately allocated between the 25 districts and the two sectors (urban and rural), based on the total of Agricultural personnel as at 1981 Population Census.

It was however noticed that the number of Agricultural Households in certain urban blocks were very few. hence it was decided to double the number of urban blocks and to select 5 households from each urban block and 10 households from each rural block.

It was also decided that, the maximum number of blocks allocated to a district to be not more than 180 blocks and minimum to be not less than 36 blocks. The number of blocks within districts were adjusted as above and was readjusted so that in any district, the final number of sample blocks to be a multiple of 12. This enabled distributing the final number of blocks over the 12 rounds (monthly rounds). Finally the number of census blocks (PSU's) selected was 2,664 and the number of households selected (SSU's) was 25, 340.

## CONFIDENTIALITY

Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

## ACCESS CONDITIONS

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.
4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG, DCS. DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the micro-data file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG, DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.
